ALL RIGHT NOW

The Lewis County Vote Certified As It Was Cast.

LAST GASP OF GOEBEL GANG.

The Goebel Board of Election Commissioners for Lewis county again met at Vanceburg yesterday, pursuant to adjournment.

As had been stated in THE LEDGER, the Board, freed of all interference by the Maysville Goebels, had agreed to certify Lewis county's vote as her citizens had cast it; but after the Board met it was found necessary to have the Court impress the gentlemen with the fact that they were not quite the whole push.

It is but proper to state, by way of parenthesis, that Messrs. Cox and Grimes repeatedly expressed the wish that the Court would step in and help them to do right.

Before this action, however, the Board had permitted the officers of election at Burtonville Precinct to sign the stub-book, which was an unimportant matter as they had at the close of the polls signed sextuplicates of the result, the figures agreeing in every particular with the unsigned certificate in the stub-book.

They had also permitted the election officers of Mower's Precinct to supply certain deficiencies in their returns.

And then they certified to the State Board that Lewis county had given 845 majority for Taylor.

There was no "mob" in town, There was perfect quiet everywhere, And the goose hung over the front door.

GANG'S LAST GASP.

When the above facts became known in Maysville, Mr. James N. Kehoe, under cover of last night's darkness, slipped up to Vanceburg and had the Commissioners file with their report to the State Board a certificate setting forth the fact that they had been served with a Court order requiring the performance of their duty—or words to that effect.

Fortunately Hon. A. M. J. Cochran was still on the ground, and he had them file an additional postscript stating that the trivial irregularities had all been amended before the Court's temporary restraining order had been flashed upon the Board.

Now, if Lewis county loses her vote, it will have to be stolen by the State Board.

An Important Difference.

ADMITS DEFEAT.

One Honest Goebel Editor Who Pleads For Fairness.

WHO'LL BE NEXT TO FOLLOW?

Mt. Sterling Sentinel-Democrat.

The official and unofficial returns from last Tuesday's election demonstrate conclusively to our mind that a majority of the legal voters of Kentucky have expressed a preference for William S. Taylor as our next Chief Executive, and this being the case—and there can scarcely be a doubt that it is—Democrat that we are and Goebel supporter that we have been from the outset, our sense of fairness and justice compels us to state that we think Mr. Taylor should be given the certificate of election and inaugurated on December 12th as Governor of Kentucky without protest and without trouble.

Even the most ardent Goebel supporters, we believe, do not claim that Mr. Goebel has received a plurality of the votes cast and that the certificate of election could only be given to him by the throwing out on technicalities of counties which gave large Republican majorities and counting the votes in Nelson county certified as cast for William P. Taylor for Governor, which were evidently cast and intended for William S. Taylor. That the sovereign freedom casting these votes wanted to and did vote for William S. Taylor there can be no question of a doubt. Then should they be practically disfranchised by reason of the incompetency or fraud of the election officers of which they (the voters) were in nowise responsible? We most assuredly think not; and the same argument holds good regarding the vote of Johnson and Knox counties, which it is alleged will be thrown out because tissue ballots were used.

While we realize that in writing the above we perhaps lose the good will of men whose friendship we cherish and blast any future political ambition we may have had, yet we would rather sacrifice this than to sacrifice our manhood in making a claim we did not believe was right or honest, and we will not stifle our conscience by so doing. We favored Mr. Goebel's nomination, after which we advanced his election ardently, and pardon us when we say, we believe, fairly, intelligently, and believing as we did and do that he is one of the brainiest men, not only in Kentucky, but in this country; that he is a friend of the great masses of the people, and would have made a great and good Governor, we would have been greatly pleased to have seen him fairly elected the Chief Executive of our state, and it hurts us much that fate decreed otherwise. We condoned the manner by which he secured his nomination, believing his opponents would have gotten it in the same way could they have done so, but we cannot—we will not—condone any attempt on the part of Mr. Goebel or his friends to use the machinery in their control to attain for him the Governorship of Kentucky by foul or unfair means.

As we said in our last issue we believe the next General Assembly will be called on to determine who was elected Governor last Tuesday, and if such be the case we trust that each member of both branches thereof will be guided alone in his acts and vote by what is right and just, regardless of what it hurts or helps.

We love the Democratic party and its principles and should have loved to have seen a Democratic administration at Frankfort for the next four years, but not to the exclusion of Justice.

NEWS NOTES FROM NATURE'S GREAT HIGHWAY.

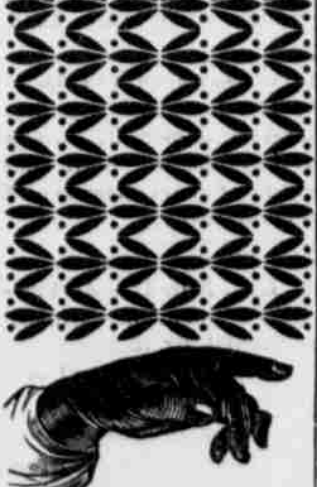

Light rains have been general throughout the Monongahela and Allegheny river valleys, and several places report a rise of over a foot. A coal-shipping stage is liable to occur in the Ohio at any minute now, according to those interested, and everything is in shape for the millions of bushels of coal that have been loaded for months to get away at the first opportunity. The many creeks and springs emptying into the Ohio and Monongahela rivers are beginning to put forth a supply of water. The indications for more rain are good, and the streams at Pittsburgh are rising. The stage at Davis Island Dam was yesterday 4.6 feet and rising, with 6.9 feet in the Monongahela river at the Smithfield Street Bridge. It is probable that packets will resume operations today or tomorrow.
